

Soil testing to support better fertiliser decisions

Join local agronomists, fellow farmers and DPIRD officers for a workshop and sundowner to learn about nutrient management and making the most of your soil testing results.

The workshop is open to all farmers. Participants of Healthy Estuaries WA are required to attend to receive soil testing results and recommendations.

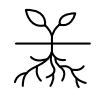

The workshop will cover:

Soil test results (farm nutrient map)

Understanding limits & constraints

Lime and fertiliser uptake

Production goals

Fertiliser strategies

Results from pasture trials

Soil testing

Analysing soil test results
