

Lower Blackwood Catchment
Land Conservation District Committee

Is your spreader wasting fertiliser?

Join us at an Accu-Spread demonstration day to find out

Did you know that the majority of fertiliser spreaders deliver highly variable spread patterns? This means some areas in the paddock receive too much fertiliser and others too little.

Join Australia's leading Accu-Spread specialist Russell Nichol, who will demonstrate how to test and calibrate your own fertiliser spreading equipment to increase productivity and reduce nutrient loss to waterways.

Date: Friday February 10th, 8am to 2pm

Location: 1670 Warner Glen Rd, Warner Glen, 6288

Register: <https://lowerblackwood.com.au/events/accu-spread-demo-day/>

Lunch provided. Please register and provide dietary requirements and let us know if you'd like your spreader to be tested (limited numbers!)
